Professional Summary

Detail-oriented BSIT graduate with hands-on experience in manual testing, API testing, and Playwright automation. Skilled in smoke, sanity, regression, and end-to-end testing, with experience using Jira, Postman, SQL, JavaScript, and Python. Passionate about improving software quality and building reliable web applications.

Technical Skills

- **Testing:** Manual Testing, Smoke, Sanity, Regression, End-to-End Testing, Bug Reporting
- **Automation:** Playwright, JavaScript
- **API:** Postman (REST API)
- **Database:** SQL
- **Tools:** Jira, Git, VS Code
- **Programming:** JavaScript, Python

Professional Experience

IT Support Intern – Department of Public Works and Highways (DPWH)

- Installed and configured Windows operating systems and software.
- Troubleshoot hardware, software, and network connectivity issues.
- Provided technical support to end users.
- Documented issues and resolutions while assisting the IT team.

Projects

EduVibe – Full-Stack Developer & QA Tester (Capstone Project)

Technologies: HTML, CSS, JavaScript, Express.js, Firebase

- Developed the frontend using **HTML, CSS, and JavaScript**.
- Built the backend with **Express.js** and managed the **Firebase** database.
- Identified, documented, and verified software defects before deployment.
- Integrated the frontend, backend, and database into a functional e-learning platform.

- Performed **manual testing**, including **Smoke, Sanity, Regression, and End-to-End Testing**.

FreeSpace – Full-Stack Developer & QA Tester (Personal Project)

Technologies: React, Tailwind CSS, JavaScript, Supabase, PostgreSQL, Git, GitHub

- Developed the frontend using **React** and **Tailwind CSS**.
- Built the backend and managed the database using **Supabase** and **PostgreSQL**.
- Implemented CRUD operations and integrated the frontend with the backend.
- Executed **manual testing**, including **Smoke, Sanity, Regression, and End-to-End Testing**.
- Identified, documented, and verified software defects to improve application quality.

RoadWise: A Comprehensive Driving School Management System

Mini Capstone Project | QA Manual Tester

Technologies: C#, MySQL

- Executed manual testing for student registration, instructor scheduling, and payment modules.
- Designed and executed test cases to validate core system functionalities.
- Performed **Smoke, Sanity, Regression, and End-to-End Testing**.
- Tested the user interface (UI) and recommended usability improvements.
- Identified, documented, and verified software defects using **MySQL** to validate application data.

Education

Bachelor of Science in Information Technology

STI College Caloocan (2022–2026)

Certifications

- Cisco Data Analytics Essentials
- Cisco Python Essentials 1
- Cisco JavaScript Essentials 1

Soft Skills

- Attention to Detail
- Analytical Thinking
- Problem Solving
- Communication
- Teamwork
